Carolina Beach

Come join us for a trip to the ocean; a place where some of the movie stars and entertainers have walked and where movies have been made for TV and for the big screen; a place where history abounds and a place where pirates of yesteryear took refuge.

North Carolina Aquariums

The Aquariums were established in 1976 to promote an awareness, understanding, appreciation, and conservation of the diverse natural and cultural resources associated with North Carolina's ocean, estuaries, rivers, streams, and other aquatic environments. The NC Aquarium at Fort Fisher has a wide array of native and exotic species of aquatic life. Sea turtles, alligators, cuddle fish, sharks, manta rays as well as a woodland habitat and a poisonous stake exhibit.
